# FLORENCE BHEBHE

DISTRICT MANAGER OF THE WINNIPEG OFFICE

## HOW SHE GOT STARTED WITH VECTOR

### Recommended

I was recommended by a friend to the job she wanted to help me out and knew I was looking for a job so she thought I might like it.

## WHERE IS SHE NOW?

### District Manager

*I am the District Manager for the Winnipeg, Manitoba office. I am excited to step out of my comfort zone once again and challenge myself in this new leadership role and my new home in Winnipeg.*

## DESCRIBE YOUR FIRST VECTOR SUMMER

### SSC2 Conference

*I sold just over \$3000 and had a great and life changing experience at the SSC2 conference*

# QUEENIE NG

## BRANCH MANAGER OF THE SUREY OFFICE

UNIVERSITY OF CALGARY STUDENT  
BACHELOR OF SCIENCE  
KINESIOLOGY DEGREE

## HOW SHE GOT STARTED WITH VECTOR

### Referral from a Friend

## DESCRIBE YOUR FIRST VECTOR SUMMER

### Summer 2019

*I started in the Summer of 2019. I took 3 weeks off to go to a private camp in the mountains in BC and went on a missions trip to the LA dream center.*

## WHY DID YOU DECIDE TO JOIN LEADERSHIP ACADEMY?

### Experience

I decided to join leadership academy for experience and personal growth. I've always been in leadership positions whether it was student council or on sports team; this just felt like the natural next step for me. I also wanted to learn about the opportunities in vector and learn more about running a business as I want to open my own clinic in the future.

## WHERE IS SHE NOW?

### Branch Manager

I am now finished my first year in university for Kinesiology at UofC. I am working towards my masters for physio therapy at UBC. I am running my first business at 18 years old during a pandemic and looking forwards to building a strong team and beating all the other branches

## WHAT ADVICE DO YOU HAVE FOR NEW REPS

### Be Consistent

The biggest piece of advice I would give to a new rep is to be consistent with activity, so like demos, PDI, and attendance. "Consistency is the key to success". This can be hard to do when you first get into vector but that is why the manager exists.
